Hello again SPAC Artists!

This PDF document presents the **Final Image Collection** for the 2020-2021 “Point of View” (POV) Competition and Exhibit. This is based on the photography competition conducted for you in October 2020 by the Sidney Shutterbugs Camera Club together with the results of your vote in early November 2020.

This document highlights the **Artists’ Choice** as well as the other ten Qualifiers. All are listed on the right with the photographers’ names and are presented on the following pages in the order listed. As before, the Collection begins with all images presented as thumbnails on page 3 for an overall view, followed by each image on a separate page.

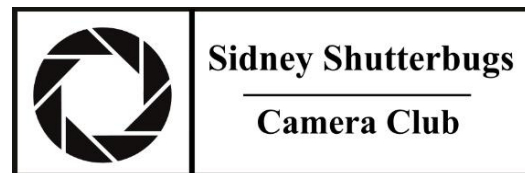

We recommend use of the “full-page view” setting in your PDF reader. You can review the Collection by scrolling forward or backward page-by-page or by using the navigation that starts on the thumbnails page.

This document accompanies a copy of the Artists’ Choice image file (JPG). If you would like a copy of the JPG file for any of the other Qualifiers, please

contact your POV coordinator Lois Brown. She will contact the Shutterbugs POV coordinator to obtain the file and the photographer’s contact information.
